

Issue Report Rental Asset Center

	Module	Issue	Steps	Actual Result	Expected Result	Attachment	Status	Environment	Reporter	Dev	Remarks
--	--------	-------	-------	---------------	-----------------	------------	--------	-------------	----------	-----	---------

1	Rental Asset Center → Rental Asset List	Advanced Filters functionality does not correctly update the list based on the selected filter criteria. According to the specification, the Filters button should allow advanced filtering using fields such as Created By and Created On date range. However, after applying these	1. Navigate to Rental Asset Center 2. Ensure the Rental Asset List view is loaded 3. Click the Filters button 4. Set filter values: ◦ Created By (select any user) ◦ Created On date range 5. Click Apply Filters	The list does not update correctly based on the applied filter criteria.	When Created By and/or Created On date range filters are applied: • The Rental Asset list should update dynamically • Only records matching the selected filter criteria should be displayed • Non-matching records should be excluded	 	Exsit ed	@Anoma Rathnaya ka
---	--	--	---	--	--	--	--------------------------	------------------------------------

		filters, the list does not update correctly according to the selected values.	6. Observe the list results							
2	Rental Asset Center → Rental Asset List	Sorting (ascending/descending) does not work for “Created By” and “Created On” columns in Labour list view	1. Navigate to Rental Asset Center 2. Ensure there are multiple Rental records with different Create d On values (and/or different Create d By values, if possible)	1. Clicking Create d On does not change the record order 2. Clicking Create d By does not change the record order 3. Ascending/descending toggle behaviour is not	1. Clicking Create d On should sort records by created date/time (ascending/descending) 2. Clicking Create d By should sort records alphabetically by creator (ascending/descending) 3. Sorting should be consistent with other			Ex sit ed	@An oma Rath naya ka	

		3. Click the Create d On column header to sort 4. Click again to toggle ascending/descending 5. Repeat steps 4–5 for Create d By column header	applied	sortable columns and list view expectations						
3	Rental Asset Center → Create Rental Asset	According to the Rental Asset Center specification, the Email Address field (rental_email) should exist in	1. Navigate to Rental Asset Center 2. Click Create Rental Asset 3. Observe the Rental Asset Inform	1. The Email Address field is not displayed in the Create Rental Asset form	1. The Email Address field should be present in the Create Rental Asset form 2. The field should validate		o...	Exsit ed	@AnomaRathnaya ka	

	removes the record, which causes data loss instead of allowing a soft status change.

Improvement & Suggestions

	Module	Feature	Attachment	Improvements & Suggestions	Remarks
1	Rental Asset Management	Rental Asset – Create/Edit Form		Add a confirmation dialog when the user clicks “Cancel” while creating a Rental Asset. If the user has entered any data and clicks Cancel, the system should show a confirmation message: “Are you sure you want to cancel creating this Rental Asset? Unsavd changes will be lost.” Popup dialog: <pre>Cancel Rental Asset Creation Are you sure you want to cancel creating this Rental Asset? All unsavd changes will be lost. [No, Continue Editing] [Yes, Cancel]</pre>	
2	Rental Asset Management	Profile Session – Availability		Add real-time validation for overlapping availability	

			time ranges within the Availability modal itself. System should detect overlap immediately when user enters Start/End times and show inline error before clicking main Profile Save.
